East Africa's Largest International Building & Construction Trade Exhibition

WELCOME

The BUILDExPO AFRICA - International Trade Expo on Building & Construction Products, Equipment, and Machinery, is Tanzania's largest trade event held annually in Dar es Salaam. The exhibition attracts companies from more than 30 countries and visitors from all over East & Central Africa, thus giving exhibitors an excellent opportunity to explore several countries in one time.

Tanzania has emerged as a major regional trade centre and also is positioned to be a major gateway into the African continent. According to a recent report, the building industry in Tanzania is expected to grow at a compound annual growth rate (CAGR) of 9.5%, driven by increased public and private investments in infrastructure development, urbanization, industrialization and housing demand. Tanzania offers a very friendly and business atmosphere to foreign investors. Duties are considerably low and re-exports to neighbouring countries are either very low or exempted.

Last year the event was Inaugurated by Hon. Dr. Latifa Khamis, Director General, TanTrade representing The Permanent Secretary of the Ministry of Industry and Trade along with Hon. Dr. Janet Reuben Lekashingo, Chairperson, Mining Commission, Ministry of Minerals, The United Republic of Tanzania. The show was an exceptional success for the 26th consecutive year. The expo proved to be a useful stage for visitors to meet exhibitors of their interest. As a proven platform for business to business, the exposition showcased latest developments in the Building and Construction Industry. Stakeholders from various organizations, decision makers from the end user industries as well as industry observers and experts interacted with each other, making the event an excellent platform for networking and relationship building. Exhibitors identified the immense potential of the East African market while the visitors were exposed to explore various new business options.
